

How To Clean an Oven with Vinegar and Baking Soda (and Salt!)

Easy Oven Cleaning without Harmful Chemicals

Cook Time	30 minutes
Baking Soda Rest Time	1 minute
Total Time	1 hour 30 minutes
Cost	\$5

Equipment

- 1 Dirty Oven

Ingredients

- 1 Spray Bottle
- 1/3 C Coarse Salt
- 1/3 C Baking Soda
- 1/3 C White Vinegar Add to Spray Bottle
- 2/5 C Water Add to Spray Bottle
- Water To mix in paste Amount will vary
- Paper Towels or Cleaning Rag
- Rubber Gloves Optional

Instructions

1. Make sure your oven is off and cooled down
2. Mix baking soda, water, and coarse salt into a paste
3. Remove the oven racks
4. Cover the inside of oven with the cleaning paste
5. Clean the oven doors
6. Clean the racks with baking soda and vinegar
7. Submerge racks overnight in a sink with of vinegar and hot water
8. Spray everywhere you added paste with white vinegar and water mix
9. Wipe down the oven one last time
10. Replace the clean oven racks

Notes

If the smell of vinegar is too much, try adding lemon to the mixture to offset the smell.
